Link a plan to a calendar practice

Revision 2026-10-10

Connect a written plan to a scheduled practice so the Dashboard stops flagging it.

Calendar practices are scheduled slots. Practice plans are the written practice. When each calendar practice has a plan linked, the Dashboard stops counting it under **PLANNING STATUS**.

Link from the calendar

1. On the **Calendar**, open the practice.
2. In **Practice plan**, search for the plan and pick it.
3. Select **Save**.

Start the plan from the practice

1. When you add a practice on the Calendar, select **Save and Create a Practice Plan**.
2. Write the plan. It's linked to that practice already.

From the Dashboard

On the **Practice** card, select **Plan Practice** to write or open the plan for your next practice.
