

Turn the announcer on or off

Revision 2026-10-11

Enable voice calls with Narrator, or use classic time-up sounds instead.

The announcer speaks countdowns and time-up lines. When it is off, you pick a classic end sound instead.

Open Announcer settings

1. On the home screen, tap **SETTINGS**.
2. Tap **Announcer**.
3. Turn **Enable Announcer** on or off.

When the announcer is on

1. Under **Character**, select **Narrator** (bundled and available offline).
2. The note says: **Narrator is available offline. Additional voices download from the server.**
3. Under **MORE ANNOUNCERS**, tap **Get announcer voice packs** to open Concessions for more voices.

When the announcer is off

1. Under **Time-Up Sound**, pick **Wrestling Bell**, **Ding**, **Game Buzzer**, or **Gong**.
2. Tap a row to preview and select it.
