Organize your technique library

Revision 2026-10-10

Build your team's techniques by position, system, move and finish.

In the side menu, open **Coach's Journal**, then select **Curriculum**.

How it's organized

1. **Position**: for example Neutral, Top or Bottom.
2. **System**: a family of work in that position, such as Shot Entries or Escapes.
3. **Move**: the technique itself.
4. **Finish**: how the move ends.

Each system shows a short count, such as "2 moves · 1 pathway."

Add and find techniques

1. Select **Add technique** to add something new.
2. Use the search box or filter by position to find one.
3. Select **Expand All** or **Collapse All** to open or close the whole list.
4. Switch between **Curriculum View** (the full list) and **Pathways View** (how techniques connect into teaching paths).
5. Use **Request Move** to ask for a move to be reviewed or added.

Tip

Set up positions and systems before adding lots of moves. The list stays easier to browse.
