Track athletes against their weight class

Revision 2026-10-10

Use the weight calculator every day to see who is on track for their target class.

In the side menu, open **My Team**, then select **OWC**.

The tabs

- **Team**: counts of **On track**, **Too light** and **Too heavy**, and a table of every athlete.
- **Individual athlete**: one athlete's plan and history. Select **Open athlete calculator**.
- **Event weigh-in**: weights for one event. See Weigh in for an event.
- **OWC Settings**: variance and expiration.

Everyday use

1. On **Team**, set each athlete's **Target weight class**.
2. Record weights at check-in or on **Event weigh-in**.
3. Watch each athlete's status. Filter with **All statuses** to see who needs help.

The table also shows **Last weigh-in**, **Expected (plan floor)**, **Difference from plan** and **Latest certification date**.
